

Tina's Trade Stock

Listed here is my admittedly ridiculously massive trade stock. Photos may not always represent the actual dice I still have at this time – **the dice marked with the symbols in the charts are what I currently have.** If you're interested in something specific, please contact me for photos of the actual dice and more detailed information about potential flaws. In some instances you may be able to choose between several available dice of the same kind.

Please note that sets or carded pip bricks will only be traded as-is. I will not break sets or almost complete partial sets apart or offer curation of sets from loose trade stock. You can find my ISO [on my dice blog](#) as well as [in this Google Sheet](#) that also outlines my trade stock in different format.
